## OUR CONTRIBUTION TO A SUSTAINABLE BATHROOM INDUSTRY

“For two decades, sustainability has been an integral part of gravity’s culture. our focus here is on consistent implementation on an ongoing basis and with measurable results.

Gravity, an ISO 9001 company, represents the superior quality of manufacturing progressive production and innovative designs. The premium products of the company have won millions of hearts, acting as a driving force for the development and transformation of the entire industry.

The success story is based on the principle that Innovation and Transformation is the key essence for the desired growth & expansion.

Gravity believes in the highest standard of designs, material and finishing of its products. The company also ensures the workmanship enrichment of the clients by providing intensive training and shouldering long term partnerships.

As a leading manufacturer in the premium segment, Gravity also represents the ideology of reliability and caring values. The company has added an innovative insight to the bathroom & kitchen environment and has derived numerous innovative product ideas from its collective approach.

Gravity is now a symbol of knowledge and cultural inspiration, covering every aspect of water as an element.

The group is undisputed a market leader in the Bath Fittings segment that has transformed the industry from merely utilitarian to inspirational with the vision to evolve into a "Complete Personal Care Solution" Enterprise, diversifying its business into various bathing verticals like Faucets, Showers, Accessories, Wellness and now Sanitary Ware too.

Over the years, Innovation, Commitment and Performance has been the group's core philosophy, as a result company now has:

- Complete range for residential, commercial and Govt. projects.
- Presence over every state in India and exclusive stores in Gulf countries.
- Trained technicians producing 10000 faucets a day.

Thanks for showing your trust with us. We believe, together we can change lives and make this world a better place to live.

### DESIGNED WITH DURABILITY IN MIND

Thanks to their top-class materials and strict quality requirements, Gravity products have a service life spanning several decades. A significant proportion of the Gravity product range also has a guaranteed spare parts availability.

### CAREFUL HANDLING OF RESOURCES

In production, the goal is to close internal material cycles, minimise waste and recycle it where appropriate. Plastic is used in the most resource-efficient and economical way possible in order to manufacture high quality, durable products. The company mostly uses cardboard and dispenses with expanded polystyrene and other plastics wherever feasible.

### REDUCING THE COMPANY’S FOOTPRINT

Gravity actively contributes to climate change mitigation and consistently reduces its energy consumption and CO<sub>2</sub> emissions. The new strategy for reducing CO<sub>2</sub> emissions builds on the successful activities of recent years.

This award is a symbol of excellence, a recognition of outstanding achievements, and an encouragement for continuous growth and success.”

**Anoop Garg**  
Director

Dear Valued Customer,  
Greetings from **Gravity Bath Pvt. Ltd.**

I am **Anoop Garg**, the proud director of **Gravity Bath Pvt. Ltd.**, and I am thrilled to introduce you to our exceptional range of bathroom fittings and sanitary wares. At Gravity, we believe in creating products that reflect the true value of your hard-earned money.

We understand that many consumers may have reservations about purchasing expensive brands, questioning whether the investment is truly worth it. Let me assure you that **Gravity is not just a brand; it's a commitment to quality, durability, and your satisfaction.**

Our products are not designed for those who seek a mere label; they are meticulously crafted for individuals who recognize the true worth of their efforts. We take pride in our **research and development team, tirelessly working to ensure that our products not only meet but exceed your expectations.**

Living in a country with unique water characteristics, we acknowledge the challenges posed by the **salty and sandy nature of Indian water.** Unlike other brands, we tailor our products to suit the Indian environment, ensuring longevity and optimal performance even in the harshest conditions.

When you choose Gravity, you are choosing more than just a product; you are choosing a partner dedicated to **servicing you better.** We are committed to your satisfaction, and our products are a testament to the meticulous care and attention we put into every detail.

Join the community of satisfied Gravity customers who have experienced the **happiness that comes with choosing quality over extravagance.** Your trust is our greatest reward.

Thank you for considering Gravity Bath Pvt Ltd for your bathroom needs. We look forward to bringing happiness and functionality to your home.

Best Regards,  
**Director, Gravity Bath Pvt Ltd**

**EXPENSIVE BRANDS**

STAINLESS STEEL  
**304**  
FAUCETS

**Advantages of stainless steel faucets:**

**Lead-free Material**

Stainless steel faucet are made of material in compliance with ROHS rules, i.e No Lead Content. This revolutionary high quality, high strength material is lead and heavy metal free\*, therefore helps to preserve water quality for both consumption and bathing.

**Easy to clean and easy maintenance**

Stainless steel faucet surface will not get rust, not change in raw copper green. It will not be pitting hence it is very easy to clean and maintain for the user.

**Go Green**

Stainless steel faucet surface without plating will not cause pollution to the surrounding environment as its material can be recycled hence won't lead to waste of resources .

**Excellent corrosion resistance**

Stainless steel faucet's thin surface and dense chromium-rich oxide film makes the stainless steel pipe corrosion resistance whether being used with soft water or underground water.

## CEILING RAIN SHOWER

MULTI FLOW WITH  
LED LIGHTS

## The types of **water flow**...

### RAIN

As the name suggests, the water from shower creates rain like effect giving both energizing and revitalizing.

### CASCADE FALL

Feel the soothing effect of water as it flows down in a cascade creating a revitalizing spa experience as you relax. The gentle sound and feel of water rejuvenates along with the powerful massage.

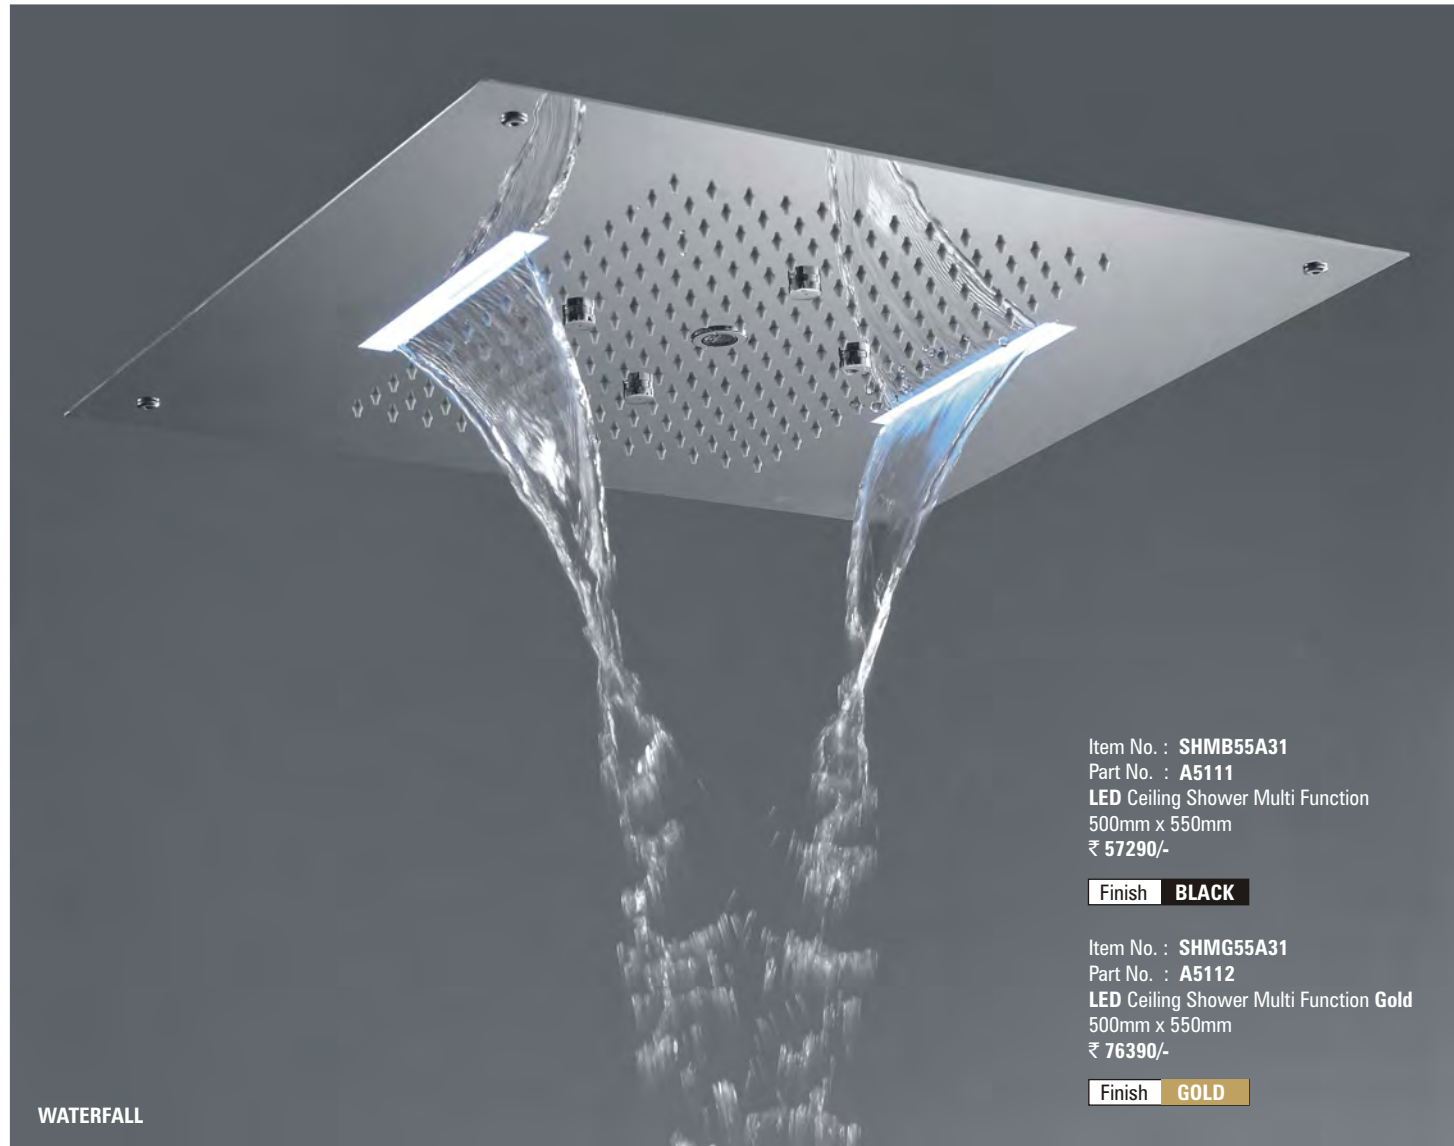

### MIST EFFECT

Sort of surrounds you with a thick mist of tiny water droplets. There's no stream of water projecting toward you. The tiny droplets spread out inside the shower space and consume you. It's like a steam room, but one that, well actually gets you clean.

### INTENSE

A mode of shower which is produced at much higher pressure than rain shower and cover a specific area unlike rain shower this mode is sure.

## Expert Finesse Dazzling

At Gravity, trends in lifestyle, fashion, cuisine and culture influence the details of our work. From technologies that redefine the living spaces to materials and colourising in the zeitgeist, we study these movements.

This book represents the current and emerging trends we've identified as the most compelling for your bathroom spaces. Enjoy!

### Scan QR Codes for Siphonic and Washdown Comparison Videos

Know about the Basic difference between Siphonic and Washdown One Piece Closet Functioning and Post Flushing Water Levels. Siphonic has a greater tendency to clog due to the smaller trapway. Since wash down does not need this suction, it has a larger trapway but leaves less water on the bowl after flushing compared to the half full of the Siphonic version. Splashing sometimes occurs when solid waste hits the water for wash down versions.

### Clean and Odourless Closets

Each closet is equipped with Glazed traps to ensure Zero collection of waste & Odour, Minimal sticking of waste in the trap, Easy flushing for greater cleanliness and hygiene

### Easy Installations & Fixtures

Convenience is an Integral part of all our products and we equip all with Superior Fixtures to ensure you get hassle free performance for years of usage.

### Add-On Features

We also offer additional features like Siphonic flushing for better performance, Rimless closets for better cleaning

### Stringent Quality

To Maintain highest quality standards our products undergo various test like Load Bearing Test, Wax Ball & Ink test for ensuring efficient flushing & chemical test to reduce possibility of stains

### Tornado Flush

Dual-nozzle water propulsion system. More powerful flush, Cleaner bowl and less noise.

### UF Seat Cover

Very easy to clean and even after years looks like at the first day. A high quality material and aesthetically looks like ceramic. Resistant against cigarette burns. Sounds more deep and less "plastic".

### Siphonic

The trap way fills with water during the flush which initiates a Siphonic action which "pulls" material out of the bowl while the water entering the bowl from the tank through the jet and the rim "pushes" material out.

### Rimless

The open design of the WC rim enables an innovative and powerful flush: water flows in the form of a horizontal arc, and then vertically, before flushing the entire inner surface of the bowl without splashing.

Perfect for RETROFIT work and water efficiency.

**BACK TO WALL  
TOILET**

**FREEING UP SPACE IN  
THE BATHROOM. ...**

People like back-to-wall toilets because the cistern and pipework are hidden away in the wall, which creates a more streamlined and minimalist contemporary look. If the cistern is inside the wall, then a back-to-wall toilet will also save space compared to a close-coupled toilet

## Natural Handcrafted Marble Design

Gravity introduces series of Art Basins specially Hand Crafted for you. Hand Crafted means these pieces are actually Hand painted, which makes them Eco friendly, Loving Designs & Long Lasting use. Where other art basins in the market are made using Paper Dip technology which can get wear and tear after short use. Whereas the hand crafted Basins ensure Long Lasting usage.

A Pneumatic (also known as air operated button) is renowned as more efficient and modern mechanical type flush button. The push plate uses small air pumps (billows), connected with hoses to flush the cistern. Pneumatic Concealed Flush Tank can be mounted rapidly in front of a solid wall or inside a stud well. Tested and certified to hold over 400kg, it provides perfect stability and safety for your home. With a wall-hung toilet and an in wall tank, cleaning your bathroom will be an ease. It is fitted with low noise fittings. It can reduce your water consumption by up to 50%. You can use flush plate of your choice, this system will be a perfect match for any bathroom interior.
